PATIENT BILL OF RIGHTS

This Facility adopts and affirms as policy the following rights of patient/clients who receive services from our facility. The facility will provide the patient, the patient's representative or the patient's surrogate, verbal and written notice of such rights prior to the start of the procedure in accordance with 42 C.F.R. § 416.50, and these patient rights will be posted within the facility in the facility's waiting room(s).

The patient rights are as follows:

- Treatment without discrimination as to age, race, color, religion, sex, national origin, political belief, or handicap. It is our intention to treat each patient as a unique individual in a manner that recognizes their basic human rights.
- Considerate and respectful care including consideration of psychosocial, spiritual, and cultural variables that influence the perceptions of illness.
- Receive, upon request, the names of physicians directly participating in your care and of all personnel participating in your care.
- Obtain from the person responsible for your health care complete and current information concerning your diagnosis, treatment, and expected outlook in terms you can be reasonably expected to understand. When it is not medically advisable to give such information to you, the information shall be made available to an appropriate person on your behalf.
- Receive information necessary to give informed consent prior to the start of any procedure and/or treatment, except for emergency situations. This information shall include as a minimum an explanation of the specific procedure or treatment itself, its value and significant risks, and an explanation of other appropriate treatment methods, if any.
- The patient may elect to refuse treatment. In this event, the patient must be informed of the medical consequences of this action. In the case of a patient who is mentally incapable of making a rational decision, approval will be obtained from the guardian, next-of-kin, or other person legally entitled to give such approval. The facility will make every effort to inform the patient of alternative facilities for treatment if we are unable to provide the necessary treatment.
- The facility will provide the patient, patient representative or surrogate with the facilities policies and description of the State health and safety laws on advance directives, and upon request, refer you to resources for general information on how to formulate an advance directive, including where to obtain the official State advance directive form, and appointing a surrogate to make health care decisions on your behalf, to the extent permitted by law. Access to health care at this facility will not be conditioned upon the existence of an advance directive.
- Privacy to the extent consistent with adequate medical care. Case discussions, consultation, examination and treatment are confidential and should be conducted discreetly.
- Privacy and confidentiality of all records pertaining to your treatment, except as otherwise provided by law or third party payment contract.
- A reasonable response to your request for services customarily rendered by the facility, and consistent with your treatment.
